

**International Center
for Hadron Astrophysics**
ICEHAP CHIBA UNIVERSITY

ICEHAP Seminar

Date Nov. 16 Tuesday 15 : 00~17 : 00

Location ICEHAP Office (Engineering Research Bldg.1 Room609-1)

By Dr. Yasuhiro Kishimoto

(The Research Center for Neutrino Science at Tohoku University)

Title

『Challenge to search for dark matter in RCNS』

Abstract

In the Research Center for Neutrino Science at Tohoku University, physics Beyond the Standard Model is explored, focusing on neutrino physics, such as neutrinoless double beta decay.

We are also promoting R&D activities searching for dark matter. I will introduce such challenges of dark matter in RCNS.
